

Inquiry Institute

Great results begin with great questions!

The Inquiry Institute invites you to a high-impact workshop

Change Your Questions, Change Your Life *Powerful Tools for Life and Work*

Marilee Adams, Ph.D.

Author of the bestselling book, *Change Your Questions, Change Your Life*

You can literally change your life—and your results—by changing the questions you ask yourself and others. This high-impact skill can make a transformational difference everywhere it is applied, at work as well as in our personal lives. Developing expertise in asking the best questions often yields a high ‘return on investment’; it empowers more successful communication, decision-making, problem-solving, and innovation. The best results really do begin with the best questions.

This “teach them to fish” workshop is dynamic, enlightening, and *very* practical. You’ll learn easy-to-apply methods for changing your questions simply and strategically, discover the effectiveness of asking questions versus giving advice, and gain confidence in asking and responding to questions.

Skills and tools taught in the workshop include how to think with questions, called Question Thinking (QT), the Choice Map, Learner and Judger mindsets, and Q-Storming®, a QT practice that often produces breakthroughs in possibilities and results. You’ll discover how to transform limiting, “troublemaker” questions into positive, productive ones as well as how the QT work strengthens emotional intelligence. Most importantly, you’ll be able to *apply* what you learn to make an *immediate* and positive difference in getting the results you want.

You are welcome to download a free copy of the Choice Map, a powerful guide for changing your questions, from www.InquiryInstitute.com.

“The response of the Executive Team to your workshop was overwhelmingly positive. We are now rolling your book out to our leadership teams at the unit level and expect greater productivity and improved satisfaction for both staff and patients.”
-- Marnie Escaf, Executive Director, Toronto General Hospital

“It was through the use of Dr. Adams question tools that I was able to successfully reach a meaningful resolution on a highly controversial project... shifting people from their adversarial roles to being solution-oriented and to co-creating a shared community.”—
Tracey Pilkerton Cairnie, President of CoreVision, LLC, Mediator, Coach, Adjunct Professor

Questions push us into new territories. The future begins with our thinking, represented by the questions we ask ourselves. "Change Your Questions, Change Your Life" shows readers how to consistently choose the questions that can lead them to success, both personally and professionally. This technique, called "QuestionThinking," stimulates innovation, accelerate productivity, and create more rewarding relationships. "Change Your Questions, Change Your Life" is a personal growth fable that tells how a seasoned executive, Ben Knight, uses QuestionThinking to move in
