10) Disaster Evacuation Training

▶ Earthquake

※ The campus buildings are built from concrete

without earthquake resistant design.

- ① When you sense an earthquake, open the closest door wide.
 - There is a possibility that you cannot evacuate as the door may not be opened due to the twisted status of the building.
 - The person who first opened the door should shout fire and keep others informed about a fire escape

- ② Protect your head with a book, laptop or other article which can protect your head.

- Underground facility is relatively safer than on-ground facility, but you should keep waiting at your place until the shaking stops.
- As delay of evaluation to underground facility may occur due to a massive number of people flocked. Therefore, start evacuation from letting people near the exit out under the direction of the leader.
- If you are staying on third or fourth floor which is relatively upper floor of the building, get under the desk or the table when the earthquake occurs as it is likely to evacuate depending on the condition of damages on the building (Evacuate immediately when the strength of earthquakes is lowered.)

- ③ Evacuate quickly through where a door is opened
 - Run crouching down and covering your head

※ How to deal with fire following earthquake

1. Shout 'Fire!' immediately after feeling minor quakes before the next big quake to alarm around and turn off the heat.
2. Shout 'Fire!' when big quake stops. Put out the fire

Three Recommendations for Better Campus Life

"Reading, Writing and Speaking"

Reading

People say that you are not an educated or a cultured person unless you have read 'Mun-Sa-Cheol 600'. Mun-Sa-Cheol 600 means 300 books of literatures, 200 books of history and 100 books of philosophy and it is a strict lesson that you cannot be raised to the intellectual without reading them at an early age. Needless to say, there are heaps of benefits of reading books. Not reading books can be evidently regarded as that you are apathetic about your inner world.

Writing

It is said that "records last longer than clear memories". Particularly, recording is very useful in your schoolwork.

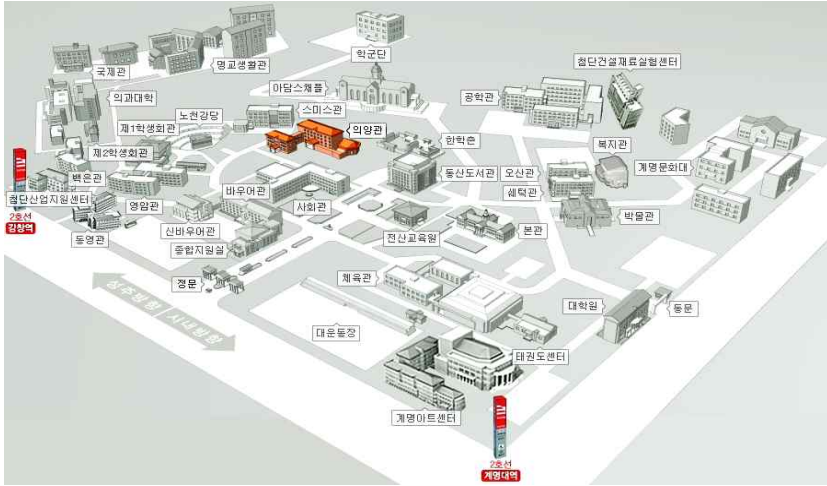

Have a habit of writing notes helps your memory, makes you monitor yourself and leads you to be grown and developed. If we could only rely on memory without recording, we would lose a lot. The simple habit of filling your small notebook with records in each semester will become a present called 'self development and growth'.

Speaking

Nobody will read what you think if you do not speak because we are belonged to the world of human beings. We ever expected that someone would understand our thoughts even though we do not speak. You you are a

grown-up in university and you should express your thoughts now and soon. Also, you will face a lot of opportunities for joining a discussion for a specific subject. Discussion is a speaking technique that argues logically proving with reasons to carry each other in respect of a subject split to the position between 'Agree' and 'Disagree'. Discussion (Speaking) is a basic living of an intellectual.

A blue book or bluebook is an almanac, buyer's guide or other compilation of statistics and information. The term dates back to the 15th century, when large blue velvet-covered books were used for record-keeping by the Parliament of England. The Oxford English Dictionary first records such a usage in 1633. The term has a variety of other meanings. The Yale College Programs of Study, referred to as the Blue Book. As the Cold War deepens and the new political threats loom for Project Blue Book, Dr. Allen Hynek (Aidan Gillen) and Captain Michael Quinn (Michael Malarkey) must delve further down the UFO conspiracy rabbit hole in their dangerous quest for the truth. Soon, cover-ups from the past (including at Roswell) collide with new UFO cases in the present (including at Area 51), forcing our duo to not only question the multi-faceted The Blue Book or Kelley Blue Book is a guidebook that compiles and quotes prices for new and used automobiles and other vehicles of all makes, models, and types. First published in 1926 by Los Angeles car dealer Les Kelley, the Blue Book was originally only available to those in the automotive industry, but both a consumer edition and an online edition was made available in the 1990s for the general public.
