

Capital: A Critique of Political Economy, Volume 1

By Karl Marx

Createspace, United States, 2015. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Capital: A Critique of Political Economy by Karl Marx, is a critical analysis of political economy, intended to reveal the economic laws of the capitalist mode of production. In Capital: Critique of Political Economy (1867), Karl Marx proposes that the motivating force of capitalism is in the exploitation of labour, whose unpaid work is the ultimate source of surplus value and then profit both of which concepts have a specific meaning for Marx. The employer is able to claim the right to profits because he or she owns the productive capital assets (means of production), which are legally protected by the capitalist state through property rights (the historical section shows how this right was acquired in the first place chiefly through plunder and conquest and the activity of the merchant and middle-man). In producing capital (money) as well as commodities (goods and services), the workers continually reproduce the economic conditions by which they labour. Capital proposes an explanation of the laws of motion of the capitalist economic system, from its origins throughout its future, by describing the...

Reviews

It is easy in read through easier to fully grasp. it had been writtern very completely and useful. I am pleased to let you know that here is the greatest book we have read during my personal life and could be he very best book for possibly.

-- Miss Marge Jerde

It is really an remarkable publication i actually have possibly study. It usually is not going to cost excessive. Its been written in an exceedingly basic way and is particularly only right after i finished reading this publication through which basically transformed me, affect the way i think.

One of the most notorious works of modern times, as well as one of the most influential, the first volume of Capital; A Critique of Political Economy is an incisive critique of private property and the social relations it generates. Living in exile in England, where this work was largely written, Marx drew on a wide-ranging knowledge of its society to support his analysis and generate fresh insights.Â Unfinished at the time of Marxâ€™s death in 1883 and first published with a preface by Frederick Engels in 1894, the third volume of Capital strives to combine the theories and concepts of the two previous volumes in order to prove conclusively that capitalism is inherently unworkable as a permanent system for society. Penguin classics. Capital. Volume 1. Karl Marx was born at Trier in 1818 of a German-Jewish family converted to Christianity. As a student in Bonn and Berlin he was influenced by Hegelâ€™s dialectic, but he later reacted against idealist philosophy and began to develop his theory of historical materialism.Â When Volume 1 of Capital was first published, capitalist industry, though predominant in a few Western European countries, still appeared as an isolated island encircled by a sea of independent farmers and handicraftsmen which covered the whole world, including the greater part even of Europe.
