

ABOUT THE BOOK

The book contains the proceedings of the Fourth International Congress on Science and Skiing, which was held at St. Christoph am Arlberg, Tyrol, Austria.

The conference was organized and hosted by the Department of Sport Science at the University of Salzburg, Austria, and by the Christian Doppler Laboratory "Biomechanics in Skiing", Salzburg, Austria.

It was also part of the programs of the steering group "Science in Skiing" of the World Commission of Sports Science and contains a broad spectrum of current research work in alpine and nordic skiing and in snowboarding.

In the proceedings of this congress, the keynotes and invited lectures as well as the oral presentations are published. The manuscripts were subject to peer review and editorial judgement prior to acceptance.

ABOUT THE EDITORS

Prof. Dr. Erich Müller

Professor and Head of the Department of Sport Science and Kinesiology at the University of Salzburg. Main research areas: biomechanics and training in alpine and nordic skiing as well as in game sports. Chair of the Christian Doppler Laboratory "Biomechanics in Skiing". Head of the steering group "Winter Sports" of the World Commission of Sport Science.

Dr. Stefan Lindinger

Assistant Professor at the Department of Sport Science and Kinesiology at the University of Salzburg. Member of the Christian Doppler Laboratory "Biomechanics in Skiing". Main research areas: biomechanics and training in cross-country skiing.

Dr. Thomas Stöggl

Assistant Professor at the Department of Sport Science and Kinesiology at the University of Salzburg. Member of the Christian Doppler Laboratory "Biomechanics in Skiing". Main research areas: biomechanics and training in cross country skiing.

Contents

Introduction 15

PART ONE: KEYNOTE PAPERS

Vibration exposure in alpine skiing and consequences for muscle activation levels 19

P. Federolf, V. von Tscharner, D. Haeufle, B. Nigg, M. Gimpl and E. Müller

Importance of sensorimotor training for injury prevention and athletic performance 26

A. Gollhofer and M. Gruber

Eccentric exercise in alpine skiing 33

H. Hoppeler and M. Vogt

Alpine skiing technique – practical knowledge and scientific analysis 43

S. Loland

Stimuli and stimulation: hypoxia and mechanics 59

J. Mester, S. Achtzehn, M. de Marées, E. Engelmeyer, A. M. Liphardt and F. Suhr

PART TWO: INVITED PAPERS

Diet and muscle fatigue during two weeks of alpine ski training 75

D. W. Bacharach and K. J. Bacharach

Prediction of ankle ligament elongations in snowboarding using a kinematic model 88

S. Delorme, M. Lamontagne and S. Tavoularis

The competitive Cross - Country Skier – an impressive human engine	102
H.-C. Holmberg	
Equipment development and research for more performance and safety	111
V. Senner, S. Lehner and H. Böhm	
PART THREE: ALPINE SKIING	
Alpine skiing and snowboarding training system using induced virtual environment	137
V. Aleshin, S. Klimenko, M. Manuilov and L. Melnikov	
Heart rate recovery in young alpine skiers with congenital heart disease	145
M. Bernhörster, A. Rosenhagen, M. Castano, L. Vogt, R. Hofstetter and W. Banzer	
Emotional experiences and FLOW in easy bump pistes	152
T. Brandauer, T. Felder and V. Senner	
How to ski faster: art or science?	162
M. Brodie, A. Walmsley and W. Page	
Modeling edge-snow interactions using machining theory	175
C. A. Brown	
Predictors of falls in downhill skiing and snowboarding	183
M. Burtcher, R. Pühringer, I. Werner, R. Sommersacher and W. Nachbauer	
Preliminary results on the role of the coach-athlete relationship in a developing ski nation	188
S. Chroni, I. Lefoussi and M. Kalomirou	

Measurement of dynamical ski behavior during alpine skiing M. Fauve, M. Auer, A. Lüthi, H. Rhyner and J. Meier	195
Analysis of skiers´ performance using GPS P. J. Gómez-López, O. Hernán and J. V. Ramírez	207
System-Theory-Based-Model-Building for a practice and theory of alpine skiing H. Haag	216
Calculation of the pressure distribution between ski and snow D. Heinrich, P. Kaps, M. Mössner, H. Schretter and W. Nachbauer	229
Eccentric and concentric torque of knee extension and flexion in alpine ski racers H. Hoshino, K. Tsunoda and T. Sasaki	242
Influence of the skier´s body geometry on the duration of the giant slalom turn Ž. Hraski and M Hraski	252
Description of race courses and estimation of ground reaction forces by GPS-Data and video A. Huber, K.-H. Waibel and P. Spitzenpfeil	260
Identification of the physical characteristics that discriminate between competitive levels and specialties of alpine skiers F. M. Impellizzeri, E. Rampinini, M. Freschi, N. A. Maffioletti, M. Bizzini and P. Mognoni †	272
Development of a measuring system on ski deflection and contacting snow pressure in turns H. Kagawa, T. Yoneyama, D. Tatsuno, N. Scott and K. Osada	281
Not the skier – but the slope turns the skis G. Kassat	292

Athlete responses to using a real time Optical Navigation Feedback System during ski training	304
R. Kirby	
Influence of physical fitness on individual strain during recreational skiing in the elderly	310
S. Krautgasser, P. Scheiber, J. Kröll, S. Ring-Dimitriou and E. Müller	
EMG signal processing by wavelet transformation – applicability to alpine skiing	320
J. Kröll, J. M. Wakeling, J. Seifert and E. Müller	
Effects of a mock-up force plate on riding technique and perception – a prerequisite for comprehensive biomechanical analyses in mogul skiing	327
N. Kurpiers, U. G. Kersting and P. R. McAlpine	
Robot imitating human skiing used for teaching and equipment testing	337
L. Lahajnar and B. Nemeč	
Applications of physics education research to skiing pedagogy for coaches and instructors	347
R. LeMaster	
H:Q ratios in open versus closed kinetic chain: what is the relevance for alpine ski racers?	357
S. Lember, C. Raschner, H.-P. Platzer, C. Patterson and E. Mildner	
Physiological profile of Swiss elite alpine skiers – a 10-year longitudinal comparison	365
N. A. Maffioletti, K. Jordan, H. Spring, F. M. Impellizzeri and M. Bizzini	
Effects of ski stiffness in a sequence of ski turns	374
M. Mössner, D. Heinrich, P. Kaps, H. Schretter and W. Nachbauer	

Power endurance testing in alpine ski racing	389
C. Patterson, C. Raschner, H.-P. Platzer and S. Lemberg	
Acquisition of EMG signals during slalom with different ski boots	399
N. Petrone, G. Marcolin, M. De Gobbi, M. Nicoli and C. Zampieri	
Loading conditions and neuromuscular activity during vertical knee flexion-extension and turn-like movements in a new skiing simulator under vibration conditions	410
R. Pozzo, F. Zancolò, A. Canclini and G. Baroni	
Turn characteristics and energy dissipation in slalom	419
R. Reid, M. Gilgien, T. Moger, H. Tjørhom, P. Haugen, R. Kipp and G. Smith	
Transfer from inline-skating to alpine skiing learning in physical education	430
B. Román, M ^a . T. Miranda, M. Martínez and J. Viciano	
Quantitative assessment of physical activity during leisure alpine skiing	439
A. Rosenhagen, C. Thiel, L. Vogt and W. Banzer	
Guided Alpine Skiing – Physiological demands on elderly recreational skiers	445
P. Scheiber, S. Krautgasser, J. Kröll, E. Ledl-Kurkowski and E. Müller	
Biomechanical basis for differential learning in alpine skiing	454
W. I. Schöllhorn, P. Hurth, T. Kortmann and E. Müller	
Cumulative muscle fatigue during recreational alpine skiing	465
J. Seifert, J. Kröll and E. Müller	
Mechanical load and muscular expenditure in alpine ski racing and implications for safety and material considerations	479
P. Spitzenfeil, A. Huber and K. Waibel	

Relationship between vertical jumps and different slalom courses V. Strojnik and A. Dolenc	487
A step forward in 3D measurements in alpine skiing: a combination of an inertial suit and DGPS technology M. Supej	497
Measurement of ski deflection and ski-snow contacting pressure in an actual ski turn on the snow surface D. Tatsuno, T. Yoneyama, H. Kagawa, N. Scott and K. Osada	505
Physiologic characteristics of leisure alpine skiing and snow- boarding C. Thiel, A. Rosenhagen, L. Roos, M. Huebscher, L. Vogt and W. Banzer	516
The influence of the laterality of the lower limbs on the symmetry of connected carving turns F. Vaverka and S. Vodickova	523
The method of time analysis of a carving turn and its phases S. Vodickova and F. Vaverka	532
Respiratory and metabolic demands of field versus laboratory tests in young competitive alpine ski racers S. P. von Duvillard, D. Bacharach and F. Stanek	543
Assessment of timing and performance based on trajectories from low-cost GPS/INS positioning A. Waegli, F. Meyer, S. Ducret, J. Skaloud and R. Pesty	556
Performance analyses in alpine ski racing regarding the characters of slopes and course settings K. Waibel, A. Huber and P. Spitzenfeil	565

PART FOUR: CROSS COUNTRY SKIING

3D analysis of the technique in elite ski-touring and cross-country skiers engaged in world cup races and on a treadmill	575
A. Canclini, G. Baroni, R. Pozzo, M. Pensini and G. Rossi	
Individual modeling of the competition activities for elite female ski races during the 2006-2007 season	585
A. Čepulėnas	
Intra- and inter-individual variations in the daily haemoglobin and hematocrit concentration in elite cross country skiers caused by different body positions, state of hydration, exercise and altitude	596
E. Engelmeyer, M. de Marées, S. Achtzehn, C. Lundby, B. Saltin and J. Mester	
Visibility and availability of GPS in cross-country skiing	607
A. Krüger, K. Sikorski, J. Edelmann-Nusser and K. Witte	
Simulation of classical skiing using a new ski tester	615
V. Linnamo, V. Kolehmainen, P. Vähäsöyrinki and P. Komi	
Balance performance of elderly cross-country skiers - standing still or swaying smart?	621
V. Lippens and V. Nagel	
Biomechanics in classical cross-country skiing – past, present and future	630
W. Rapp, S. Lindinger, E. Müller and H.-C. Holmberg	
Biomechanical factors of biathlon shooting in elite and youth athletes	641
G. Sattler E. Müller and S. Lindinger	
Effectiveness of ski and pole forces in ski skating	647
G. Smith, B. Kvamme and V. Jakobsen	

Competition analysis of the last decade (1996 – 2008) in cross-country skiing	657
T. Stöggli, J. Stöggli and E. Müller	
PART FIVE: SNOWBOARDING	
Jump landings in snowboarding: an observational study	681
P. McAlpine, N. Kurpiers and U. Kersting	
Influence of physical fitness parameters on performance in elite snowboarding	690
H.-P. Platzer, C. Raschner, C. Patterson and S. Lemberg	
Optimizing snowboard cross and ski cross starts: a new laboratory testing and training tool	698
C. Raschner, H.-P. Platzer, C. Patterson, M. Webhofer, A. Niederkofler, S. Lemberg and E. Mildner	
Lift generation in soft porous media with application to skiing or snowboarding	708
Q. Wu and Q. Sun	
PART SIX: SKI JUMPING	
Kinematic analysis of the landing phase in ski jumping	721
F. Greimel, M. Virnavařta and H. Schwameder	
Stability during ski jumping flight phase	728
F. Hildebrand, V. Drenk and S. Müller	
The relationship between the timing of take-off action and flight length by using the doll-model	737
T. Sasaki, K. Tsunoda, H. Hoshino, S. Miyake and M. Ono	

PART SEVEN: HIGH ALTITUDE TRAINING IN SKIING

Effect of hypoxic training on angiogenetic regulators and mesenchymal stem cells	747
M. de Marées, P. Wahl, F. Suhr, S. Achtzehn, A. Schmidt, W. Bloch and J. Mester	
The anatomical hazards of the grip wrist tunnel syndromes	759
S. Probyn, P. Van Roy and J. P. Clarys	
Oxygen uptake during local vibration and cycling	769
B. Sperlich, H. Kleinöder, M. de Marées, D. Quarz and J. Mester	
Effects of short term high-intensity exercise under normoxic and hypoxic conditions and warming up on erythrocyte and plasma lactate concentrations after a giant slalom simulation	779
P. Wahl, C. Zinner, E. Lenzen, M. Hägele, S. Achtzehn, W. Bloch and J. Mester	
Index of authors	792

If the book is out of copyright, or the publisher has given us permission, you'll be able to see a preview of the book, and in some cases the entire text. If it's in the public domain, you're free to download a PDF copy. Learn more about the different views. Buy books or borrow from the library. If you find a book you like, click on the "Buy this book" and "Borrow this book" links to see where you can buy or borrow the print book. You can now also buy the ebook from the Google Play Store. Shop for books. Learn more fast. Kids Book Club. The 100 Best Quotes About Reading. Published 4 years ago. You know our goal at Bookroo is to help you spend less time searching so you can spend more time actually reading! That's why we've compiled a list of the 100 best quotes about reading. Read on to see the many insightful, witty, and motivating things that have been said about reading by authors, poets, scientists, artists, visionaries and even comedians. Let us know in the comments below which is your favorite, and what quotes you would add to the list! The quotes about books you'll see below are not the most famous ones. All of them, however, are highly motivating to rediscover the pleasure of reading. You may ask, what book quotes have to do with the ebook site. This beautiful book quote was beautifully visualized by Risa Rodil. You can get the artwork from Redbubble, on a variety of products. Besides a number of posters, you can have iPad and iPhone cases, mugs, wall clocks, and even a duvet cover!
