Approaches to Management – Quantitative Approach, IT Approach, Systems Approach and Contingency or Situational Approach. There are several approaches to understand what management is. We can understand how managers take decisions through the decision-making approach. Contingency or situational approach explains the managerial practices in the event of a contingency or situation. Socio-technical system approach explains that every organisation has a social and a technical dimension. It is important to design managerial roles considering the technical and social dimensions in the organisation. Mere technology cannot make the organisations successful.
